Bachelor of Design: Art Photography
Syracuse University
2011

ABOUT

I am originally from New York but have resided in Canada and Hong Kong helping expand my world view and stay in touch with friends across the world.

Art has been both an outlet and a source of meditation as I journey through my career. It is something I can always find solace in.

I have led a dual life of art and sport since the very beginning at a very competitive level and I still volunteer in my spare time to help run non-profit sports organizations.

I am the VP of Operations for the New York State region for rugby and sit on the USA Rugby National Team Congress.

SKILLS

Photography, Photo Retouching, Videography, Video Editing, Live Video Production, Logo/Brand Design, Animation, HTML, Power Point, Web & UX Design.
